VIGNESH G

Data Analyst | Bengaluru, Karnataka

+91 9363696834 | vigneshganesan1324@gmail.com | linkedin.com/in/vignesh-G | github.com/vignesh | portfolio |

PROFESSIONAL SUMMARY

Analytical and detail-oriented professional with experience in data reporting, business intelligence, application support, and data operations. Skilled in SQL, Advanced Excel, Power BI, MySQL, and Python. Experienced in data extraction, cleaning, validation, transformation, dashboard development, KPI reporting, and reporting automation. Proven ability to analyze operational datasets, identify trends, generate actionable insights, and support data-driven decision-making through dashboards.

SKILLS

Data Analytics & Reporting: KPI Reporting, Data Visualization, Dashboard Development, Reporting Automation.

Programming & Query Languages: SQL, Python (Pandas, NumPy), DAX**.**

Business Intelligence & Visualization: Power BI, Power BI Service, Power Query, Power Pivot, Advanced Excel. Databases & Data Warehousing: MySQL, Data Modelling**.**

Data Management: Data Cleaning, Data Transformation, Data Validation, Data Reconciliation, ETL Processes, Exploratory Data Analysis (EDA)

EXPERIENCE

Data Analyst | Besant Technologies, Bangalore June 2026 - November 2026

- Contributed to data analysis projects, gaining hands-on experience in data cleaning, data transformation, and exploratory data analysis.
- Used SQL to extract, filter, join, and analyze datasets to identify trends and generate meaningful insights.
- Created interactive dashboards and reports using Power BI to visualize key performance indicators (KPIs) and support data-driven decision-making.
- Performed data cleaning and preprocessing using Excel and Python to improve data quality and ensure accurate analysis.

PROJECTS

COVID-19 Analytics Dashboard | Excel | SQL | Power BI|

- Imported and cleaned COVID-19 datasets from public sources.
- Performed exploratory data analysis (EDA) to identify trends and patterns.
- Created SQL queries to extract meaningful insights.
- Designed interactive Power BI dashboards with filters and slicers.
- Visualized key metrics including total cases, active cases, recoveries, and mortality rates.
- Delivered reports to support data-driven decision-making.

EDUCATION

B.E. in Computer Science and Technology | Karpagam College of Engineering (Anna University) | March 2026 | CGPA: 7.1

CERTIFICATIONS

- Design Thinking — Infosys Springboard
- Bootstrap — IIT Spoken Tutorial

LEADERSHIP & ACTIVITIES

- Practice SQL queries regularly to strengthen data analysis, problem-solving, and database management skills.
- Participate in data analytics workshops and technical learning activities to enhance knowledge of data analysis techniques.
- Work on data analysis projects to develop skills in data cleaning, data interpretation, and generating meaningful insights from datasets.
